If you want to make an old woman as unbalanced as any atom just show her - more Vietnam Vets,

Vets of any wars, like Lewis Puller Jr. - names on a black wall -

If human females had the decency of the sow bear. It would not be happening - women do not have the courage they expect <sup>and demand of</sup> their sons - when they, as citizens, take part in sending them onto battle fields - to kill or be killed, crippled, destroyed mentally, physically -

The male of the human species is a killer, a hell creator.

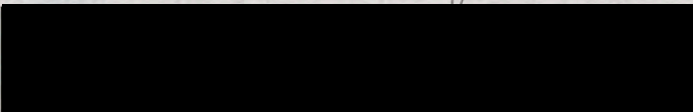

He puts himself in league with the devil when he does it -  
It's recorded in history books -

Women could have stopped it a long time ago just by forming a God, Christ, woman coalition -

All they had to do ~~was~~ become upholders of God's law, that one law, thou shalt not kill - to make all the difference. save their sons lives - uphold God's law, the Ten laws, Christs two Commands. It puts the whole armor of God, Christ, on the people that do it -

Can the religions that are Bible associated stand against them?

Its the associated church that can be judged, its under the laws of God - where it can be judged.

It stands to reason the will of the Bible's God was expressed in Ten laws that were obeyed by the man, Jew, Christ. It not only proved love for God, it takes good care of any and all neighbors - the laws have to be all embracing - for all people

It can be done in America -

The Janet Reno's, Ruth~~er~~ Bader  
Ginsburgs - the <sup>leading</sup> women, in this  
world could use God's law -  
the law, thou shalt not kill -  
in getting a stop put to fighting  
wars. Churches

men the male leaders can be  
judged under that law, ~~that~~

men break, when wars are  
fought - men, the males of the  
human species, by doing all  
the killing done in fighting their  
male fights, that are called in man's  
case, wars have proved ~~time~~ and  
again they have never trusted,  
believed in, had faith in the God

that expressed His will in His laws  
the law, thou shalt not kill - a law  
that is so full of logic. When we take  
into consideration what nature does to  
humanity with all its other evil powers  
- men are evil - they do create Hell!
