

a primary snake of politics
pure and simple. That problem
had gone on for years and
years - so why make a big
thing of it now? Not a bank, just
a pool for convenience.

The American people have
been brain washed by the
Reagan admin. - Deregulation
caused the bank and S. & L.
failures and the Airline
bankruptcies - Let everyone
operate without any regulation -
do as they please - and the
American people have to pay
for it.

We need to find some
good things about politicians.
They are not all bad - The
news people should be more
truthful and quit stressing
the trashy stuff -

Mr. Lamb
Dear C-Span,

I think you usually do a
good job but recently it seems
to me it is slanted toward the
Republicans - The Democratic
Pallster should be fired -
He had little to say in favor
of the Democrats.

As for Bill Clinton, I'm sick
of references to bad character.
~~references~~ The man who started
the story of his marriage alleged
problem has retracted it -
Said he made it up because
Clinton fired him from a State
job. yet the press never mentions
this. A woman who sold a
story to a tabloid newspaper
is taken for truth, and as to the

newspapers! That tells something about him - It shows he represents
big business, news papers owned mostly by rich people -
Gov. Brown disgraceful -

draft thing, nothing is farther from the truth than to say "draft dodging" when he dropped an ROTC deferment and put himself into the draft. That charge of "draft dodging" or "draft evasion" is completely untrue, so why is the press carrying it on?

no one is perfect and I'm sick and tired of so much character assassination in politics -

what about polls? They claimed it was a toss-up in Fla. between Clinton and Isongas - well, what kind of a toss-up was there? Clinton got twice as many votes as Isongas, or nearly so.

Isongas says very little - I've ^{not} listed trying to find out what he is for and I hear nothing except "manufacturing" - no explanation as to how he would do it - Sounds like

helping the rich and they will take care of everyone - He looks sick to me and has had cancer -

As to bashing Congress, I'm sick and tired of that also. I think most of our Congressmen are hard-working honest people. They have been elected by the people and it is not fair to try to tear down our government by criticizing them.

about the overdrafts at the bank - That was more like a club, not a real bank - something inside done for convenience to members - I can't see what business it is of the public - no tax payers money involved - writing that checks not a good idea but let the House clean it up and go on. me, the public, don't need to know anything about it. So bring it out just before

Now a Republican heads the list having written the most but checks
