Dear Brian Lamb -

Congratulations on a fine operation.
Since I've had cable (1 yr) I'm much better
informed.

Thank you for giving exposure to little
known viewpoints and philosophies.

Your "Booknotes" are excellent.
Have you considered Paul Hawken's
"Ecology of Commerce"? Harper.

I think your audience would appreciate
an intelligent explanation of redefining
earned and unearned income.

Has there been any discussion on
the collection of land rent as the primary
source of government revenues?

Just some ideas. Keep up the good work.

Sincerely,

Brion Lomb -
