Raising a child is the way he should go, and when he is old he will not depart from it.

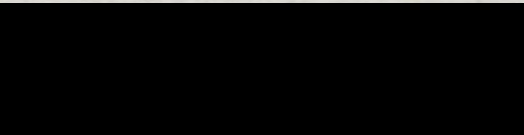

It is a private responsibility to raise these children, and teach them right from wrong.

Today they do it the other way around, the children are raising the parents.

The Church can't do it, the school can't do it, and the state can't do it.

The public school is nothing more the (cess pool.)

If I had young children I would not send them to a public school.
