

We Senior Citizens feel that we should be able to get the Toqueville material for our discussion groups - we are parents & grandparents & we often teach members of our families in ways they do not always receive at school. If we don't qualify, who does? It isn't always in classrooms that one reaps knowledge. Much comes from homes & groups who get together.

We are disappointed we did not receive Toqueville material. No one watches C-5 pay with more laxity than as seniors
