JUL 03 AMO
All Members of both Houses of Congress are receiving this letter.

Radio, television, and the press who have an obligation to keep the public informed are also receiving copies.

The one million dollar figure may be too high or too low, but the basic tax concept will work and is the only way to continue with our current free enterprise system.

This tax is painless, as there is no pain after death.

Any comments as well as receipt of this proposal will be appreciated.

"LET'S GET IT BACK"

There is only one way to pay off the NATIONAL DEBT, and that is to get the money back from those who have it.

I want a **FEDERAL INHERITANCE TAX ON THE EXTREMELY WEALTHY**. This tax to be used **ONLY** to pay off the **DEFICIT**.

The wording of the tax is very simple. **NO PERSON CAN INHERIT MORE THAN ONE MILLION DOLLARS**.

Anyone who figures out how to make a fortune legally is certainly admired by the American people, but **NO DYNASTY** should be created at the expense of the taxpayer.

We have the S & L Scandal, the HUD Scandal, the Farm Loan & Subsidy Scandal, Military Spending Scandal, etc. These are just a few of the Government Programs where huge deficits have developed and the dollars end up in the hands or portfolios of the wealthy. **MILLIONAIRES AND BILLIONAIRES ARE CREATED BY GOVERNMENT SPENDING PROGRAMS**.

Even though all citizens feel the effect of Government Spending, the dollars soon find their way to the wealthy.

Every business man in the United States and many elsewhere in the world are waiting for the Government's next move so they can make a wind-fall profit. This is part of Capitalism and the Free Enterprise System, but if we must spend on all of these **JUSTIFIED PROGRAMS, "LET'S GET IT BACK."**

How many American Citizens know the difference between a Billion and a Million??

If a stack of \$1,000 dollar bills six inches high were a million dollars, how high would the stack be to make a billion dollars??? As high as the Washington Monument (500 feet) or a 50-story building. The estimated Savings & Loan bail-out cost of 140 billion dollars would make a stack of \$1,000 dollar bills 13-1/2 miles high. **WHERE DID THIS MONEY GO????? "LET'S GET IT BACK."**

This tax would be gradual and not felt by the average citizen, but would cause opportunities in areas now dominated by the extremely wealthy. It would certainly correct some of the past abuses of Capitalism and show the world that even the Free Enterprise System can be improved upon.

We fought to establish our freedom and approved a Constitution eliminating **Lords and Commons**. Let's stop a growing dynasty in America and start reducing the deficit.

Over 99% of the voting, tax paying citizens of the United States would certainly approve this tax.

Where all people are supposedly created equal--Isn't One Million Dollars enough to start out with???
