Dear C Span -

Please allow me to tell you how angry I am about the show today with Mr. Russert - Mr. Cloud and Mr. Colton - I watched the first showing alone and felt very sad that this is the level to which we have fallen - Callers called in to say we don't want this - this is not behaving properly, etc - One caller was treated harshly by Brian Lamb, I have not seen him do this before - He seems to be like a dog with a bone with this and it shows - The caller from Gu. called to say she felt it is beneath Americans to do this and Brian - Russert and Cloud belittled her on the air for her opinion - Are these men our judge & jury on the subject of what others want or what they will put up with - Later today I had two tables of Sr. Cit. for Bridge and we reviewed the second showing we are a group of people that do not agree when it comes to politics - we seem to

disagree on almost every thing.
Many of us voted for Bush
(once) and now have already
picked our party and our
man - But one thing we did
agree on today that C Span
is involved in "dirty tricks"
we do all agree that we watch
C Span & get away from Soaps
Seniors are a group of people
that have given up. Our children
husbands and friends in many
ways - have worked hard all
our lives - we watched our
children turn into Puppies &
Flower Children and our Grand
Children turn into drug
users & drop out of school -
Now we are reaping our rewards,
we aren't dead yet and our
group has decided to fight
"dirty tricks" in the only
way we can - just not read
those papers and not watch
those shows - and try to
get other Sr. Cit. groups to
help - and we will vote the
way we decide and most of
us are glad we don't have to
rely on two of those men on
the show today to help us -

It also ruins my Sunday morning because I will no longer watch a favorite show of mine.

While I'm here I'd like to say that I watched the Rain bow show - all day and do want to thank you for that and watched the hours before the S. of U. Speech and certainly did enjoy that. I feel cheated and deep sadness that your show had to drop to the level of the other stations -

Thanks you
