Brian Lamb & Staff are  
the best.

Enjoy C-Span I & II

Complaint: \_\_\_\_\_

A strange noise has  
appeared on C-SP I with  
daily call in shows in  
the last few weeks —

---

It is a hum - vibration -  
or noise while the person  
is talking & gone when  
they hang up. It really  
irritates & hard to hear the  
caller. I don't hear you  
telling people to turn  
down the TV any more -  
Does this take its place -  
(over)

If this is your  
~~#~~ fault hope we  
can get back to  
normal.

I called Time  
Warner & they said  
it must be your  
problem. Time Warner  
is not the best!
