

(SAAB-city the town where the SAAB car
is made)

Hello!

Thank you very much for a very interesting program!

I am a 31 years old busdriver. We have been connected to the Kabel-TV (satelite) system since April 1988 and I think this is one of the most interesting programs I have seen on Satelite!

I am really looking forward to August and the Republikan convention.

We here in Sweden are interested in US politissuns and US Presidents. Especely when you have in mind that it is only 150 km $\approx$ 91,5 miles between the Island of Gotland in Sweden and Lettland in the USSR. People here in Sweden want a strong President in US. We don't trust MR Gorbachov when he talks about glasnost and perestrojka!

Refering to the Swedish TV News: Are peapel in
USA rather impressd and thinks he goes the
right way to freedom and "demokrasu" for the VSSR peapel.
I hope ~~it~~ it's true.!

I don't trust him. We have forighn submarines
in our waters and so on. I have visit East
Europe as well as USA as Tourist.

I hope the US peapel vote fore a strong President.!
Please send a C-span botton. Thank you.

Yours sincerely
