Just wanted to give you a big applause
because the show ended with that attacking caller abt
\$ + cost per child. Thank God someone has the guts
to say children are valuable, children are worth
spending money on, children need our support,
special guidance, extra efforts — has that caller
questioned the cost of not investing in our children?
You both showed alot of class and style as you
reminded the viewers — “These are public schools” —
we are just trying something new — trying to go the extra
9 yards! Wonderful — my love, prayers + blessings
to you. Continue to unapologetically say its ok to
spend more money on children. And ask the donors to
ponder the “cost” to our world when these lives are
lost to low-self-esteem, crime, etc. You are both
taking on the challenge of our era. ♡
