

Dear Brian,

Thank you for sending me the addresses of some of the press. And Sally Quinn's piece and appearance on C/SPAN was truly enlightening. Now that all these "elite" hypocrites have been exposed I.E. the Goodwins of this world, we have a good picture of D.C. I was also happy to see the story of Lt. Brian Lamb, a super guy, a real moral fella and one hellava brilliant man. Now you can see how we feel about the happenings in govt in general, the cover ups, the 56,000 dead in Nam, the MC Namara of this world, the govt denials of agent orange, the atomic tests on our kids, the Gulf syndrome, etc, etc. Also the leaving behind of 8,000 in Korea, the 2,500 or more in Nam, etc.

(2)

I would love to write a book on how the govt has used our kids as Cannon fodder for the multi-nationals to reach into countries for oil, etc. I am a Conservative, a "real" Conservative. You do not get in bed with Corporations, wallow in the largess they shower upon you and then do whatever it takes to enhance them here and abroad, and call yourself Conservative. Buchanan is right but he'll always be shrouded out as an "isolationist" and radical by the David Lovers in Congress and the now Corporate owned media. George Washington was right, "beware of foreign entanglements", he said. God, are we into that now, or what? Who got the oil rights in Somalia? Exxon did. That one cost the lives of 22 G.I's. Cheap that time, eh? Thanks for -

(3)

a great program Brian and let
me say, "how can you do it"
referring to your unique balance?
We could use you in that oval
office right now. What a treat that
would be. The nation needs it
now, more than ever. I hope
you prosper to great heights and
keep your core. Take care friend
and God bless the Lamb family.
Navy Lt. Brian Lamb. Sounds great.
I was only a Torpedo man 2nd
class. I would have loved to have
you as my division officer
