aired at 1830 hrs?
on Sunday May 2, 93

~~Why is~~ Dear Sir;
are

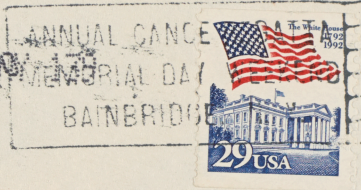

~~Tell me~~ Why^v the productive people of the freest nation left on earth expected to bail out the medical system that the hand of government has ruined. Anywhere ^{the} government meddles it creates a problem. Are we doomed to repeat history again with an omnipotent government controlling the people as to how they spend their hard-earned productive dollars. If health care is guaranteed, why work?

Yours truly
