Dear Bryan

NOV 12 REC'D

NOV 13 ASD

11-5-90 HOST

YOU ARE THE MOST FAIR, HONEST, UNBIASED, AND
YOUR EMPLOYER C SPAN UNCENSORED, OF ANYTHING ON
TV. THANK YOU THANK YOU.

YOU WOULD BE DOING THE VIEWERS OF THE USA
AND THE WORLD IF YOU WOULD HAVE ALFRED M. LILIENTHAL
ON YOUR PROGRAM. HE ALONE MAY PREVENT A WAR. YOU WOULD
HAVE A VERY LIVELY CALL IN PROGRAM.

I WILL BE 75 ON PEARL HARBOR DAY 12-7-90. I
STARTED IN TV IN 1948, BUILDING TV'S FROM KIT FORM
AND SELLING SAME. FIRST IN COLOR TV, FIRST IN SATELLITES
IN MY AREA IN N.J.

CABLE TV TRIED TO KILL SATELLITE INDUSTRY AS
IT WAS THE ONLY COMPETITION THEY HAD. I WENT TO WASHINGTON
3 TIMES TO HEARINGS. IN 1986 THE GOVERNMENT GAVE THEM
PERMISSION TO SCRAMBLE SIGNAL, EVERYTHING BUT
C.SPAN. DON'T LET THEM SCRAMBLE C SPAN

I HAVE WATCHED C SPAN CONTINUOUSLY SINCE
AUG 2. AND EVEN THOUGH IT SEEMS NO ONE IS
PERMITTED TO SAY SO, WAR WAS PLANNED THAT DAY
AND IS STILL PLANNED AND SOON WITHIN 3 MONTHS.

PRESIDENT BUSH LIED ON NOLIPS TAXES

" " " " KINDER GENTLER NATION

SOON WE WILL KNOW WHAT THE THOUSAND POUNDS OF LIGHT ARE

BOMBS BURSTING ON IRAQ KILLING THOUSANDS OF
INNOCENT CIVILIANS EVEN OUR ~~THE~~ HOSTAGES.
AND OUR YOUNG CREAM OF CROP A1 SOLDIERS.

IF WE CAN'T BELIEVE OUR PRESIDENT
NO WONDER GO PUS DON'T VOTE.

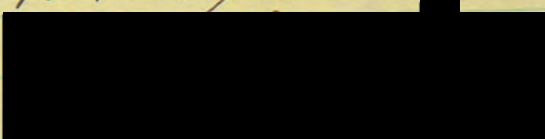

WE HAVE A CHOICE BAD OR WORSE.

P.S. REG. REPUBLICAN

I WILL VOTE TO MURKOW

EVEN THOUGH IT WILL ACCOMPLISH
NOTHING.

THANK YOU

Calm Bay, Fla. 32708

IF YOU
DON'T
WANT TO
READ
BEYOND
THIS
OK

ay Be Here Again

been filled with positive events—the introduction of the videoCipher Plus and increased anti-piracy efforts, the Videopal and pay-per-view programming, DBS announcements by Sky Cable, TVN and others, the advent of satellite TV-based home theater with surround sound, the introduction of video compression technology, high-definition TV testing, cable reregulation and third-party program packaging, etc.

While some of these may not be understood by home dish owners, they make lots of sense to manufacturers, distributors, retailers and programmers, who have been buoyed by these bits of good news. They are beginning to sense that boom times for are almost here again.

If it seems that the industry is changing faster and faster and that

*For perhaps
the first time
since HBO
began
encoding its
programming
in early 1986,
the TVRO*

you're having an increasingly difficult time keeping up, you're right. The rate of change in facets of the TVRO industry—manufacturing, programming, distribution, and retailing—is getting pretty torrid. What's more, it promises to get even more so.

We have just come back from the Satellite Broadcasting and Communications Association show in Nashville, Tenn. (Many of you may even have seen us and gotten glimpses of the show on live telecasts on S1•21, as was announced on this page during show week in mid-July.) This highly successful trade show, it was perhaps the newsiest ever. General Instrument demonstrated its new all-digital video compression high-definition TV technology, DigiCipher. TVN
