Re: Opinion of C-SPAN

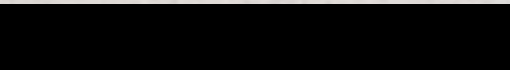

Gentlepersons:

We're pleased to have a television network that permits the public to tune in and watch the petty manipulations, political power plays, sophomoric shenanigans and outright neglects of most U. S. congresspersons.

We only wish you could move to a lower digit in the cable system so that more people might be aware---courtesy of C-Span---of just how badly we are represented in the political snakepit known as Washington, D.C.

Thanks for the opportunity to express an opinion. It would be nice to know if we're being heard somewhere---anywhere.

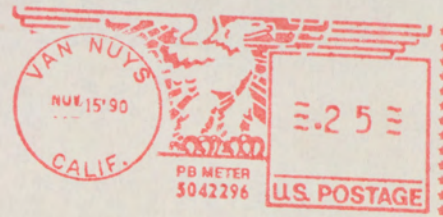

Very truly yours,

Calabasas, CA 91302
