Brian - get + show

That's when this Cabal

It would be explosive!

THE STARR SAGA

It's August 1994- Senate Whitewater hearings. It's Senator Faircloth's turn to question the witness for five minutes. He makes a speech attacking Mr. Fiske! Time and time again this went on during the hearings.

I said to myself, sitting in my den, what the hell is this? COMMON SENSE and logic told me Mr. Faircloth was out to get Mr. Fiske. To all- look at the tape of the hearings. (August 1994)

That Saturday there was a lunch in (I believe) the Senate dining room between Senators Helms and Faircloth and Judge Sentelle. All deny that Starr, Whitewater, etc. was discussed. The tape of the hearings shows what was foremost on Faircloth's mind that week. They talked about prostate cancer??? As Mr. Faircloth is want to say to the poor witnesses in the hearings- " (a scowl), ...your statement defies credulity."

The following Monday, Fiske is fired and Kenneth Starr (a man of impeccable integrity) is appointed. The attached article from the Nation Magazine speaks for itself.

I think this and Mr. Starr should be "Vetted" as Mr. and Mrs. Clinton have been dressed and undressed over the past three and a half years. With forty-five (FBI) agents tracking the Clintons, with 16,000 reporters at the convention last week- could we spare a few people to track down the following highly pertinent questions?

1- Where is Mr. Fiske? It's like he disappeared from the face of the earth. Like to hear his side.

2- Did Janet Reno or the Judge know Mr. Starr worked on Paula Jones' case before he was appointed? (Highly important)

3- Was Mr. Starr "Vetted" again just prior to his appointment? If not, why not?

4- Can Mr. Starr by all "common sense and logic" be called fair and impartial considering his previous history? and his actions to date in Whitewater?

5- Could any Senator- D' Amato, etc. survive a \$32 million , four year investigation the Clintons have? Could the Bush sons? Could Mr. Starr himself? Every phone call, every note, every scribble from fifteen years ago?

6- Did Senator Faircloth have prior knowledge of the coup? Was he more involved? COMMON SENSE and logic tell me maybe.

7- Did Mr. Starr deal with Floyd Brown on the Paula Jones case? Floyd Brown of Willie Horton's ad~

8- Who backed, financed Mrs. Lewis who was so important a witness and who called Clinton a SOB?

9- Who is backing Paula Jones? Is she in housing in California all paid for as alleged? (Don't know if that's true)

10- What was Tony Snow's role, if any, in the Paula Jones case? He was there on the podium with Paula Jones.

11- Does Mr. Starr have "impeccable integrity". Dealing with Paula Jones and even maybe Floyd Brown , plus the information in the Nation article bring this into question.

12- Why did Mr. Starr hire Mr. Dash at \$3500 a month as an "ethics guru"? Talk about billing records- How many hours did Mr. Dash spend on these duties?

13- Should not Mr. Starr be replaced- terminated for the good of his country- NOW!? He is the second most powerful man in the world. He can destroy the most powerful man in the world. Is the President to be dogged for the next four years by this man, like a rattlesnake in his den?

14- Mr. Walsh stayed too long (10 years). Mr. Starr must go for the good of his country.
