Ed would say. The people drive the machine. Whether it be American or Foreign. Our politicians seem to not think of this. Keeping in mind the Union's stock brokers & companies and get lost to listen to the people.

To much goodies for the company, to much good is for the stock people, and too much goodies for the Unions. We have to have honesty or willingness to or for 3 parties to make America work. When I look at congress, I see ~~Rep~~ Dem & Rep. but nothing for the people. And its been so after WII help everyone but U.S.A. give every body any thing. Right or wrong to every body but the U.S.A. If you don't take of your people. Dem or Rep. you'll separate the system of the U.S.A. Pay attention to U.S.A

instead of ruling the world for the  
sake of a few people.

That's all

I write this because  
we know, I'd get a fair  
shake.
