Dear C-Span:

I have always depended on C-Span for valuable information and you have always "come through" for me but this weekend has been a total loss. First, I had looked forward to Thursday 7AM Pacific time to hear Ross Perot on the American Free Trade Agreement. I got up early, made ready, set up my VCR and spent the next couple hours watching Wednesday's coverage of Gays and Lesbians before calling you for information.

For the next two days, everytime I turned you on, I got Gays and Lesbians and I'm very concerned. We were deprived of learning something very important for our country and overly exposed to a sickening abnormality. What is happening to us as a people and why is C-Span encouraging this behavior?

Respectfully,

BAKERSFIELD, CA. 93308
