To whom it may Concern:

For many years we have relied on C-Span for educational matters pertaining to our government of this great country; we have appreciated your providing this for us.

Today, quite by accident, we caught your 6 hour show on the Gay & Lesbian March on Washington. We watched it long enough to be horrified, sick & disgusted! Never have we heard such filth; never have we seen such conduct by citizens of the U. S. A. Never would we have believed that C-Span would stoop that low. The language, the almost nude display shocked us - Where on earth is the F. C. C.? Where do you or would you draw the line? Is there no limit to the degrading scenes we witnessed?

Yes, we are older American citizens and our principles & standards don't fit in with "standards" of today. And let me shock you again - we fully believe in God - who vehemently condemns

this degrading "life style". As citizens  
of the U.S. - these poor people have  
the "right" to display their filth - And  
on the other hand - we have the right  
to protest - vehemently.

It will take us a long, long  
time to even think of checking in to  
C. Spier - because after today - I  
shudder to think of the "educational  
material" you might show.

I am writing this letter for my husband  
and I - but I speak for legions of  
decent people who might not tell  
you how they feel.

I regret the event - but it prompted  
me to do something I have not done  
before - SPEAK UP!

Sincerely,

Port Arthur, Tex.
