Dear Brian Lamb:

I would like to ask the feasibility of adding a fax communication for your call in programs. Efforts to get through by telephone are usually futile plus the fact that some callers give lengthy salutations before getting to the purpose of their call. Brian, you provide a great service to the voting public and I wish to commend you for your efforts. A mixture of both calls and faxes would be a boon to many of us.

Sincerely,

[Redacted]
Loke General, WI 53147-9401
