Dear Brian:

I love C-Span - its on all day while I do my chores and I've learned a great deal. Thank you for all your work.

I know you want to be balanced in programing, BUT recently you had a program on Christie Institute work. That group has been discredited totally, and is a group trying to promote marxism. If you plan to have them on, you must have a program to balance or contradict their nonsense.

which is all warped lies. Have Mr. Bouche of CIS, or someone from AIM. Why promote the Chiisties who are using "legal terrorism" to destroy people's reputations and lives. It's disgusting.

It's hard to find a conservative journalist but we need to see more of them please.

Also, during the Congress Voting when you play Classical music, I wish someone could explain in a non-biased - non-partisan manner, just what the Congress is voting for - or against. That would help educate us.

Some of the terminology
could be explained too
Couldn't you ask Rep
Foley about this —

If not, could you play
a little lighter, music
something to lift our
mood. I get tired of
classical music,
