Washington DC 20001

Dear C Span

As I become a fan of yours I want to tell you I like most of your guest but last Thursday March 8<sup>th</sup> the two women you had on I wonder where you drag them out from. I think both of them should take a course in public speaking. Then on Sat the 11<sup>th</sup> you had two outstanding young men on. The sons of John S. Jesse J. Both of them would make any father want to claim them as their sons

As to some of your callers I think they should take a course in history also one in Government They also should pay more

attention to what your guest say and not change any words because if they do it can change what your guest say.

I would also like to issue a challenge to the reporter you have on and your staff. To take a map of the 48 States on it without names on it and see how many people can place Arkansas and Little Rock on it also if they ask for New Mexico. The reason I dont think people know where they are located

Also if you want a good news story ask MN. congress man David Mengo about CURE and how they helped to stop a floodway project its to long to go into it in a letter.

Sincerely

[REDACTED]
