W^ed like to know why no one digs into G. W.
Bush's past like you media networks did to Clinton?

are you and the others scared of Bush?

If I was a reporter I'd really go after this guy.

1. I'd check into his lies like saying once he wouldn't raise Taxes and he did just like his old man.
2. ask him about his bad business dealings
3. ask if ~~he~~ he's for raising a min-wage raise for low income workers in america.
4. ask him if he's for unionization in the work place.
5. ask what hell do to stop Steel dumping in the U.S. from ~~for~~ foreign countries.
6. ask if hell leave S-security alone and don't dip into it to cover Tax breaks Etc.
7. ask if hell protect medicare for senior citizens.

Dear Sir!

Wed like to know why no one digs into G. W.
Bush's past like you media networks did to Clinton?

Are you and the others scared of Bush?

If I was a reporter I'd really go after this guy.

1. I'd check into his lies like saying once he wouldn't raise Taxes and he did just like his old man.
2. ask him about his bad business dealings
3. ask if ~~he~~ he's for raising a min-wage raise for low income workers in america.
4. ask him if he's for unionization in the work place.
5. ask what hell do to stop Steel dumping in the U.S. from ~~for~~ foreign countries.
6. ask if hell leave S-security alone and don't dip into it to cover Tax breaks Etc.
7. ask if hell protect medicare for senior citizens.

8. ask if he feels his experienced in foreign affairs

9. ask him who should get Tax cuts, the low income people or the wealthy income earners.

10. ask him ~~to~~ if he's for abortion

11. ask him how he feels he can run the whole country when his own state has been classified as a poverty state

12. ask him about ~~drugs~~ drug dealers using Tex as a state to bring drugs into all the U.S.

13. ask him how he feels about stricter gun laws so these killings of kids will stop. or at least help to.

14. ask him if he feels he can continue to have a good economy like Clinton created if he's president.

III
15. Ask if he's for collecting ~~owed~~ the money owed to the U.S. from foreign countries.

16. Is he for the federal government handling Education & school issues or have the States do it?

These are some of the Questions we'd like to see Bush address. Either himself ~~or~~ but rather see him address these Questions with the other Republican people running for the presidency on T.V.

also mean while how about digging into Bush past about these things,

1. alcoholism — which is always stuck on a person forever.
2. Drug use.
3. womanizing
4. Bad business dealings
5. Lies to the people = said he'd wouldn't raise Taxes once, but Did
6. also where is he getting all these millions to run? We feel oil and other businesses is giving it to him in return for favors if he gets to be president. anyone can figure this out.

IV

So will see if you can get these 16 or so Questions asked to Bush. As we said we hope its in a debate with the other Republicans who is running.

Its Time Bush Quites ignoring the Questions people want answered. (We deserve this right).

Hope you'll ask these Questions and set a ~~deb~~ debate up on T.V. so the american people can see whis who.

Thanks for your Time!

P.S. a good Question we forgot.

if Republicans get a Tax cut passed, then whose are they going to make up for this Tax cut? are they going to dip into S-Security + Medicines to do this? Tell the American people this.

Dear Sir!

When tired of these Republicans
coming on you show saying Reagan is
there hero. This president was not
a hero. He was against unions in
the work place. He was against
stuff like min-wage. He was a president
who was mean-like. He was a president
who sold arms to foreign countries. So
why don't you people bring this up?

He also lobbied to protect employers.
Will be watching to see if this comes
up.

Thank You!
