Thanks for C-Space - I really
enjoy it as intelligent TV in the

I mostly sit your shows on

by not calling in -

Call-in

Thanks for C-Span - I really
enjoy it as intelligent TV in the
midst of a lot of idiot TV.

I mostly sit your shows on
tape so I save my money
by not calling in -

Sonite I've listened to
several callers denigrate you
for the "rightist" leanings of
your guest reporters - I've
laughed because I thought

They were "Liftist" learners —
Finally decided it was the
subject matter that influenced
me and quite possibly the
other viewers — Sadley, I
feel we are becoming more &
more polarized on national
issues — However, your
shows present the issues
and provide great background
info — Only wish it were
possible to have interactive

discussion on issues instead
of many unconnected
opinions & questions — it
would be interesting to
pursue connected trains
of thought —

Anyway, I wanted to
send along my thanks
for a great show and to
tell you how much we
appreciate your television
network — keep up the

good work - makes cable
worthwhile!

Sincerely,
