I Brian!

Last Sunday and other shows C-span
puts on iritates most people out here.

II

I as alot of my friends believe
C-span is a republican Network.

If it is we wish you would show
more fairness. For every republican guest
you should have a Democate as a guest.

And the same for columnist and
other Media guest. also why is it you
always cutting up the Demociates? There's
plenty of stuff to use to cut up republicans.

Why not get your investigators out
there and get the skeletons out of their closets.

or = Does it take Larry Flynn to do
it? or aren't your investigators good
enough or smart enough to do this.

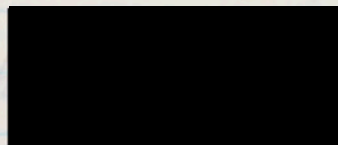

III

Or does C-span just protect
republicans?

So "please" be fair in the future.

W'd deeply appreciate it very much.

Thank you =

Also Brian in most peoples minds

G.W. Bush would not make a good president.

If you seen his last interview he acted Dumb founded. Every time he was asked a question he stopped and had to search for an answer to it in his head. He isn't very snappy with his answers.

And when he does answer a question they don't make sense.

Also can we trust another Bush?

G.W. wants to cut Taxes. Well so did his dad.

Remember "Read my Lips" no new taxes.
and what happened?

V

Also G.W. is not a good talker when it comes to speeches. also he isn't for Labor. He's not for a min-wage raise or any labor issues like unionization in workplaces, better working conditions, health care in the work place Etc. also he goes around trying to get hispanics on his side by trying to talk Hispanic which he's not too good at. also what does he know about foreign affairs? Would he also do what his dad did and not follow through by capturing Hussein. He should of sent ground troops in the first time and got this mad man. Instead he left the problem on Clinton's shoulders.

VI

So we hope you republicans think of
this before you vote. and take a
look at the country and ask yourselves do
we need to change ~~party~~ over to a republican
in the white house. Most feel we should
continue with a Democratic president and
keep the ~~Econ~~ Economy going on a good
track. Putting a republican in the white
house could send this country into a spin.

(Think about it)

Thanks again.
