Dear C-Span People, 3353-90

Today was an interesting and special day and I look forward to the Postponed Anniversary program.

It is difficult to keep a letter short, when there is so much to say.

I admire and appreciate Brian Lamb, Susan Swain, Colleen Doebble and all of you.

I admire many Congressmen and do think they should have raises as needed.

Friday Mornings are my favorite C-Span programs.

2.

I know poor people and
I know rich Republicans.
I feel that most working
people are too busy to
listen and figure out
truth from fiction. Some
of them just hear the hate
and the sarcasm against
liberal Congressmen etc.

People wonder why some
people do not vote. I
believe that there is much
that we do not understand.
I do vote, but I'm learning
every day, mostly from
you.

When we are so deep in debt and have many troubled people who should have fair chances in life. Who should have medical and dental care etc etc. - Why are we in Saudi Arabia? Is this a new way to sell our out of date guns and tanks etc - If we get rid of those old ones we can make new, beautiful guns and tanks and planes etc. Then we tell U.S.S.R to cut their defense.

4.

For ten years the Republicans have been telling us about Reagan's wonderful booming economy. Now, they want tax breaks for the wealthy "to get our economy started." They tell us that everything that is bad is the fault of the liberals.

I believe that we have many good Democrats who have a difficult job to do. I believe that we need the experienced Congressmen.

I love all of you;
