

Dear Brian Lamb & Company,

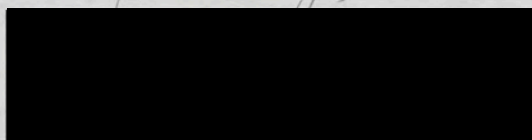

Friday May 13, 1994

Last weeks remembrance of World War II was seen with grateful thanks. Realized once again our appreciation for the young men who sacrificed their lives for our freedom. The haunting scenes from Normandy beaches and cemeteries were meaningful to the living Americans.

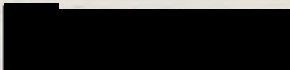

Also appreciated the reminiscences of veterans and allies and actual scenes of battles and countrysides. Having lived through the day by day battles via newspapers & radio is not the same as getting a perspective in aftermath.

G-Span is an American Treasure!
Thank you! Thank you!

Sincerely,

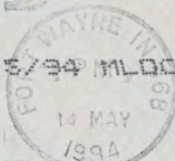

Fort Wayne, In. 46815
