

C-Span - Journalist Round Table.

I started watching your program since our cable picked it up (I think to keep from having to set rates of retransmission) I enjoy the program and usually watch the first hour.

The reason I am writing is because of the picture of the Capitol that hangs behind the guest - it hangs 10-15° crooked - This is a small item but because of all the straight lines of the bookcase and wallpaper it is very noticeable and very annoying.
