

In story after story, Year after Year, we see the Press side with Liberal/Socialists views where the free wheeling, tax & spend, bigger, bigger & bigger government, Public programs and nauleum never end. Helen Thomas is the poster child of that Liberal biased Press. Even while claiming objectivity, she sides with the Democrats/Liberals in story after story. She cannot even attempt to cover her glee with the Clintons never ending scandalous & disgusting behavior! In a time when the citizens have clearly voted to end big government Liberalism, Helen Thomas continues to plug for the fools who have spent us into staggering debt with unending deficits! Her tale of Clinton's being alarmed over drug abuse is laughable! Clinton has been directly & his Cabinet is riddled with drug abusers! Thankfully old age will soon rid us of this Cackling old Liberal lover who should get a job with the DNC so she can use her meager talents to propagandize for Liberal Causes! Adios Looney!
