Dear Gentlemen:

Why is it that the only people you have invited on your channel have been the "so called experts", such as politicians, authors and economists?

Members of an advocacy coalition for older adults issues in Northeastern Ohio have developed a program proposal which addresses the issues of health care reform and the current and growing federal budget deficit.

We would like the opportunity to have our Advocacy Committee Chairman, [REDACTED], appear on your station to discuss this proposal. At present time, we are circulating a petition regarding our concerns for health care reform and the hope for a balanced federal budget to constituents in Northeastern Ohio. A copy of the petition is enclosed and will be forwarded to Congress and President Clinton in the near future.

We feel that it is important for the opinions, ideas and suggestions of the "common man" to be shared nationwide. Your station could afford us the opportunity to present our ideas to the nation. After all, our proposal will benefit all Americans, young and old from all socioeconomic levels.

Please contact me (address and phone number listed below) to further discuss this request to appear on your station.

Thank you for your consideration in this most relavent matter.

Sincerely,

[REDACTED]
Western Reserve Area Agency on Aging
