This morning at 9:30 EST
You reported on the Prible
Committee's work to correct
the deficits of the Pension
Guaranty Corp.

While this Corp and
ERISA covers all employees,
Your cameras incorrectly
would show a title: Federal
Workers Pension Plan. This
title would mislead the
(over)

never to believe that
only the pension rights of
Federal Workers are being
addressed. A better imposed
title would have incorporated
both the private and public
sector.

I enjoy your programming
very much and would appreciate
your comments regarding my
letter.

Sincerely
