Dear Brian -

We LOVE "Booknotes" & hope that you continue to feature authors of more thought-provoking books (Klein Phillips or Martin Gross) as well as historical / biographical works.

A new book, The Death of Money by Joel Hartzman (Simon & Schuster) is fascinating. He traces how our financial system was changed from one of steady growth to one of global speculation. It is a "good" interview - calm & well-spoken. Hope you can get him on.

P.S. - If you ever can locate a copy of Compro-
mise all what you think of it.
