

July, 1993

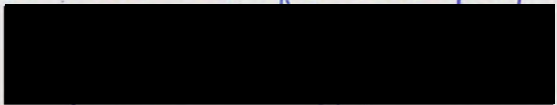

Dear C-Span People,

The ideology that stands is one that works, not only for me, but for those in my neighborhood, my neighbors accross town. Policies that work for the best interest of my fellow Citizens all over this Country.

It is really a selfish ideology because our system will work for the best interests of all or it will not work at all, for me or others.

The ideologues are too rigid, they want to make their own perfect world. The ideologues could not tolerate those conditions if it were possible.

we need a happy medium, most of all, a way that really does work for the best interest of all the people,

Logan, Ohio, 43138
