

You have a gem! (as I believe Brian & the other fellow with the laughing eyes are also!)

Thank you for your objectivity

It's refreshing not to resist
manipulation & to listen in a relaxed
manner in order to hear what people
are saying.

Dear C-Span Management Staff: 8/19/90
After listening to Susan Swain interviewing
3 Arab P.W. Candidates regarding M-East situation
I was determined to procrastinate no longer &
write you concerning how much I appreciate
Susan - her professionalism coupled with grace &
warmth. The balance she has achieved
is an example other newswomen would do
well to follow. Somehow, she doesn't make her -
self the focal-point of the interviews (as
network women & men are to do!) & yet,
each time I'm able to watch an interview
she conducts, I am impressed by how exceptionally
well she handles the guests. Without being
provocative in an abrasive manner, she provokes
candid responses that generate in-depth & charges.
