Dear C-Span,

I am a teacher working in the Ivory Coast. During my vacation here in the States, I've found myself switching to the C-span channel quite a lot. Not only do I learn a lot through your coverage, but I'm happy to see how involved other Americans are in trying to get this country to meet her goals. People are more aware, it seems, than in the recent past. I've seen what

happens to countries where
citizens are ill-informed. Thanks
for keeping us informed.

Sincerely,

[REDACTED]
