Dear Mrs. Trahern, April 12, 1992

I understand you are in charge of the guests you have on C-Span. I watch C-Span a lot and I think you all are very bias against the Democrats. You have twice as many Republicans on your call-in programs as you do the Democrats. I watch Journalist Roundtable every week and every week you have journalists who are really bias against the Democrats. You very seldom ever have anyone on who will even criticize Bush about anything. The callers call in and ask about. The three journalists you had on Fri April 10 Myron Waldman, Sara Fritz and the other one all but cut Bill Clinton's throat. I expected them to do it any minute. They did not give Clinton even one kind word it was nothing but criticism. the whole hour and a half. When a lady called in and said the

next time they wrote a story about Jennifer Flowers she wanted to see the story about Bush's so called mistress Geraldine and they acted like they didn't know what she was talking about Mr. Waldman had at least four callers that told him his bias against Clinton was really showing and he just sit there and laughed very sarcastic and said he wrote like "he" saw him. I think you ought to at least once in awhile ^{have someone} who would give the Democrats a little credit for something.

If C-Span is going to claim it is non-bias you ought to prove it sometime. Every week on Journalist Roundtable, Brian especially shows every headline in every paper he can find that is about some democrat and very seldom ever shows anything about Bush or any Republican. I think Brian is really bias against the Democrats. Sara Fritz was very Sincerely
sarcastic too. [REDACTED]
