Washington D. C.

Dear Mr. Lamb:

I would like to thank you for your channels recent carriage of the Hubble Space Telescope repair spacewalks. Because of the hour that the spacewalks were on, I recorded them, and have been able to watch them over the holidays. Your coverage was spectacular!

During the first spacewalk, I flipped back and forth between your coverage and that on CNN, and I found your coverage to be quite a bit better. The commentary was timely, but not overbearing. A nice balance was found between giving us the information to understand what was occurring, while it didn't upstage what was happening in space.

Thanks for your coverage of this mission, and your coverage a year ago of the Intelsat rescue mission. While I understand that C-SPAN is primarily here to provide Congressional coverage, I would like to see you expand your coverage of the space program; my cable system doesn't carry NASA Select.

Thanks again.

Sincerely,
[REDACTED]

Mr. Brian Lamb
