

Friends:

4/15/92

Your programs "Ocean Pollution Issues", WNDU, this date, and "Beyond The Limits" - Global Tomorrow Coalition 4/14 11:15 PM - 1:20 AM. were really great. The first got me to contact 2 Rep. + 1 Sen. to get support for bills modify "Ocean Dumping Law" + enabling E.P.A. to reconsider regulation. The second has had me ordering the book through my dealer, notifying many of its existence and suggesting to you, that with suitable advance notice both programs deserve rescheduling.

As an aside - "Beyond The Limits" verifies my own reasoning over the last 25 years. Yet I end up with "overshoot" having already occurred and a population limit (sustainable) of $6.25B \pm 15\%$.
Peace
