04 April 1994

C-Span's current programming of all aspects of the media has me locked in along with many friends I have contacted.

The range of coverage was well planned and thought out. It is also nice to see the face of the person whose work appears in print. At the moment I am watching Michael Jackson, KABC Los Angeles.

I also commend you for leaving the information on the bottom of the screen long enough to read it in its entirety. CNN and the others do not.
