Dear C-Span :

Please don't embarrass
yourself anymore by having
Jeane Kirkpatrick on again.

The woman's place in history is
a fluke - she switched parties
and happened to know a few
people.

She was an embarrassment
at the U.N. and is intellectually
shallow.

She has no sense of humor,
least of all, about herself, and
has the nerve to include Ike
as one of the greatest 20th-century
presidents, while omitting TR (who,
arguably, is probably a near-great).

She greatly admires Winston
Churchill - This is news?

Next time give her seat to
David McLoughlin so he doesn't
have to stand.

Sincerely
