Brian Lamb
C-Span
Wash D.C.
Dear Sir:

002594 APR 1993

I am writing to you to state my views and complaints regarding your various call in shows. My honest view is that your call-in programs are turning into a propaganda medium for all the ultra-Conservative, right wing "Whackos" of the Republican Party. I would say that 95 percent of the calls to your programs are people of this ilk and this is since Bill Clinton was elected President. These are people who listen to the likes of Rush Limbaugh who spews out lies, venom, hate and Conservative propaganda on their talk shows. The reason these people are able to monopolize your call in shows is that they all have speed dial telephones and most important is that they have the resources to stay on the line for 30 minutes or however long it takes to get through. Also your 30 day policy means nothing to these people because they know it is pretty difficult to monitor all these calls. Just last week I heard this one lady from Kentucky call in two days in a row on two different programs.

I have been a faithful watcher of C-Span since 1983. Even during the Reagan-Bush years a liberal such as I could get through to you and believe the calls were evenly distributed between Liberal and Conservative, but that certainly is

2.

not true since Clinton was elected.
I don't know what the solution is except
as you mentioned today that calls be
monitored and evenly divided between
people for or against Clinton. But I
don't believe this would be possible because
those right-wing whackers would still
monopolize the line with their speed dial
telephones making it impossible for someone
like I to get through.

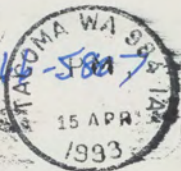

Anyway Brian I used to watch
your show faithfully every Friday, but
not anymore. I am unable to sit there
for 1'30" and listen to all these hateful
Conservatives running down our President.
I believe in freedom of speech and believe
everyone is entitled to state their views,
but when they cannot show any respect
for our President it makes it very difficult
for me personally to listen to both sides.
I like you personally as you are pretty
fair-minded and I still watch Book-Notes.
But no more call-in programs for me.
Hope you can decipher my scribbling.
Thank You.

Sincerely,

[Redacted Signature]
