I Watch C-SPAN Because

C-SPAN expands my horizon, keeps me up with political and economic issues and gives me a depth of perception that ordinary news programs can't begin to fulfill.

At age seventy I am getting a real sense of discovery. I thought I had learned a lot - now I'm learning something new all the time.

I have never been to our Nation's capital but your programs have given me a look into the three major branches and a real insight into vital news stories.

C-SPAN lifts the veil and lets me see beyond the bare facts into the reason for things happening.

It's a constant joy to have programming with real meaning, as an alternative to some very pedestrian and non-stimulating offerings.

Contest or no contest - I do thank you and consider C-SPAN my best dividend from Cable television.
