

Thank you C-SPAN.

Dear Mr Lamb,

You did it again! When a caller asked why the Presidents' involvement in the Iran Contra affair was not asked as often as Clinton's draft status you did not ask any of your guest to answer the caller. You went off into talking about the conditions in Germany with the International Caller and ignored the subject AWAIX. I do not believe you are avoiding the subject intentionally but I don't think the Presidents' answer of "I answered that." should close the subject. I have been unable to get thru during the phone-in hours - I've tried for two years. Perhaps you could

devote some time during
these guest appearances to
answers questions you re-
ceive by mail from ^{the} many
unsuccessful callers.

The papers between Schultz &
Weinberg are proof that the
President knew about the
Iran-Contra affair and I do
not know why the press lets
him get away with "I've
answered that".

Thank you,

Niantic, Ct. 06357
