C. Span
400 north Capital St.,
Washington D. C.

I thank you for acknowledging my first letter. It was a pleasant surprise.

Listening to your call-in program the morning of April 1, a lady called in saying she had read about Ted Kennedy's trip to Russia in 1980.

I, too, had heard about it some time ago on the 700 Club. Pat Robertson stated no other net work had ever reported it.

The only reason I watch his program, is to get news that

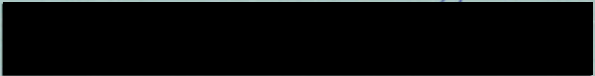

the other major networks do not report.

No doubt you could get the full story from CBN. Like, C-Span, they try very hard not to be biased, but report all news.

I'm really concerned about the report I heard of Bill Clinton being tested for AIDS.

Thanks again for your keeping us so well informed.

Sincerely,

000173 APR 10 92
