Dear C-SPAN,

The leadership in this country is a total disgrace which has given us the worst of all possible worlds. They have cut everything to the bone and destroyed the social safety net. We always get the lowest common denominator for leadership in this country, namely George Bush and Ronald Reagan.

This country has space age technology, but a stone age system of government. Only in this country could the government go out of business. It's unbelievable how nothing is done to change this obsolete system. I don't know how people can vote for Republicans. The Republicans represent nothing but greed and disenfranchisement of the masses. The Democrats have assimilated with the Republicans and have virtually formed a one party system.

C-SPAN deserves a lot of credit for covering the government without sugarcoating. There's far too much flag waving and jingoism on the regular networks. C-SPAN
(over, please)

has none of that and is a breath of fresh air.

Sincerely,
