Truth In Money

This is a one page summary of The Truth In Money message.

The most crucial problem in the USA today is the instability in the money system caused by THE GROSS ERRORS in the so-called "Federal" Reserve Money System, which is neither Federal, nor is it a "Reserve" of existing money.

Here are the errors:

1. The Fed System creates all our money as DEBT!
2. The Fed System creates this money out of thin air. This is accomplished at the stroke of a pen when the Fed System Banks make loans to government, to businesses and to individuals. This DEBT-MONEY becomes our MONEY-SUPPLY, M-1.
3. The Fed System is a PRIVATE CORPORATION SYSTEM. It consists of the 12 Fed Banks plus the thousands of privately owned Commercial Banks which own the 12 Fed Banks.
4. The Fed System charges USURY on the created DEBT-MONEY.
5. We American Citizens are obligated to repay this DEBT-MONEY plus the USURY.
6. But the money with which to pay the USURY is never created within the system.
7. Therefore it is mathematically impossible to ever pay off the AGGREGATE DEBT PRINCIPAL plus the AGGREGATE USURY.
8. In a futile attempt to avoid the day of reckoning, the borrowers take on increasing amounts of DEBT to pay the USURY. This escalates DEBT at an exponential rate until borrowers are forced into BANKRUPTCY, whether an individual, a company or a government.

The related consequences are:

Involuntary unemployment, inflation, high USURY RATES and the planned loss of our inherited freedoms!

It is clear that:

The correct solution to this overwhelming problem is to repeal the Federal Reserve Act and replace it with legislation to create our money with no usury payment obligation, as a public utility under law and under the control of the Sovereign Citizens of the United States through their Representatives in The Congress!

The Truth In Money Book shows precisely how to do it.
