This book is not totally about Hollywood and the movie industry

(2)

by any means. Lots of politics, WWII stories of politicians, the War, and Hollywood, John Ford and the OSS (forerunner to the CIA) Lots of info. on John Wayne, his politics, his attitude, etc.

Mr. Harry Carey, Jr. is 78 years old, still making movies (120 pictures so far) He is a Living Legend in Hollywood and to all of us die hard Western movie buffs. Mr. Carey co-starred with John Wayne in 11 movies - more than any other actor. His book is phenomenal!

Yours Truly,
