Dear C-Span,

Please answer a question for me. I have written my cable company but to no avail.

Here in Atlanta we get C-Span which covers the House of Representatives, 24 hours a day but C-Span 2 which covers the Senate is on from about 3:00 am to 5:00 pm and on weekends it's cut off at 12:00 pm. Can a cable company legally split a channel like that? It is extremely frustrating to listen to senate debates and have them cut off at 5:00 o'clock.

The reason I'm writing is that some time ago I thought I heard Brian Lamb explain to a caller that your contract with cable companies requires them to run the programs clean without splitting channels. Is that true.

As I said I've written my cable company and all I got back from them was a form letter.

Thanks for your services to the people. I love C Span.
