

Mr. Lamb -

you were so right - nothing better happen to C-Span,  
you were also correct in saying no one mentioned  
substance. As of now we watch C-Span, one "sit-  
com", a few A&E and Discovery programs. I wouldn't  
pay \$400<sup>00</sup> for a TV set, much less \$1000<sup>00</sup>!! Also,  
two sets I bought are 13" - but then I can't sit  
"watch" TV - I have to have something to read too!  
of course, I do "yell" at some of your guests or  
callers & very one in our family acts similarly -  
sometimes they even disconnect the TV!!! - C-Span is  
usually the reason they re-connect them!!!
