Dear C-Span,

I think you offer <sup>an</sup> exemplary update  
view of the government on a continual basis.  
The only problem is I can never get it through.

This <sup>is</sup> regarding the sale of gas and oil to Europe!

I've heard arguments  $\frac{\text{sale}}{1} \times 4$  for ~~the sale~~  
on your program

1. It's part of free trade! - (The President's words)  
Actually, it's treason!! With the Gulf  
Crisis!

2. The Europeans pay \$3-4/gal. Whoopie!!  
They also have exemplary rail and bus  
service. We don't. The Greyhound Bus  
is going broke and we have no rails,  
essentially. We need all the cheap gas  
& oil that we can get. We're being  
gouged now.

Please get copy of this letter to Roger Porter -  
Assist. to the President for Economic and Domestic  
Policy.

Sincerely,

P.S. Please excuse Script.

I've copied this x 3, already. I'm a Cancer patient.
