Dear Dr. Lamb and Others:

First let me join all the others who have told you how much they appreciate and enjoy the American Presidential Series. I find it most exciting. I stumbled upon it quite by accident when Washington was the subject, and you have had an avid viewer/listener ever since.

This past Monday (May 17) I was thrilled to see suddenly on the screen the picture of the biography of John Tyler done by my dear professor at West Virginia University, Dr. Oliver Perry Chitwood. I thought- Jim

Supposed to have a copy of that! I wonder where it is. It was there on a shelf, and I read again the personal message he put in it and looked again on his autograph. He was a dear friend of mine.

I have looked into the book since Monday - it is quite readable - he gives interesting back ground for Tyler. I recognize many things given in your program. I notice that Dr. Chitwood's book is in print and costs $32.00. This will wiggle your ears: My Copy cost $4.00.

I thought you could be interested in this personal touch your program brought me.

I look forward to Abraham Lincoln.

Sincerely
